PROFILE

I'm a passionate full-stack developer and UI/UX designer with experience building modern web applications using React, Next.js, Supabase, and Tailwind CSS. I specialize in creating intuitive user interfaces, efficient backend systems, and visually engaging products with responsive design and animations.

From multi-role school report systems to hotel booking platforms, I combine clean code with creative design to deliver real-world solutions. I'm driven by a love for problem-solving, scalability, and making technology work beautifully.
